Description

Dieter Bensmann is a renowned German organ builder based in Steinfurt, North Rhine-Westphalia. His workshop is known for both restoring historical organs and constructing new ones, with a focus on maintaining the integrity and original sound of the instruments. Bensmann's expertise has earned him a respected reputation in the field of organ building, particularly for his meticulous attention to detail and dedication to preserving the rich heritage of organ music. His work is highly regarded in both Germany and beyond .
