Keyaction

tracker/mechanical

Tuning

1/4 Comma Meantone at 438.8 Hz a 20 °C Hz

Description

The organ was built in 1735 by the organist Joan Baptista Ferrer de Falset. During the years, it has been having different minimal current maintenance interventions. During the Civil War, most metal tubes were plundered. The rest of the organ, especially the secrets, was preserved in 1986 by Gerhard Grenzing.
