## Description

The Organ was constructed by Rieger Orgelbau/Schwarzach in 1965. Between 2000-2001, minor modifications were made by Caspar Glatter-Götz, which included the installation of a Sub Bass 32' on the Michael's loft. In 2008, the Sub Bass was converted into the Grand Bourdon 32' of the Michael's organ, which was already located on the Michael's loft. The organ is built from oak mounted on a steel beam frame.
