Builder	G. F. Steinmeyer & Co
Year	1964
Period/Style	Neo-Baroque
Stops	27
Keyboards	2+P
Keyaction	tracker/mechanical

Description

The pipe organ was built by Steinmeyer Orgelbau in 1964 for the Nuremberg Cross Church in the St. Leonhard-Schweinau district. In 2005, the instrument underwent a general overhaul and was newly intonated. As it became increasingly clear in 2008 that the Cross Church building could not be maintained, the organ was dismantled in 2010 and transported by the Lutz organ building company to Odessa. There, it was to resound anew in the rebuilt St. Paul's Church.
