## Description

The organ was built by Klaus Becker, Kupfermühle in 1976. In 1708, an unknown organ builder installed a new organ in the church. In 1794, Jürgen Hinrichsen Angel from Felnsburg relocated this organ above the altar. The display case created for this occasion is still preserved today. In 1904, Marcussen built a new organ in it with II/20, and in 1976, Klaus Becker built another new organ, reusing old materials.
