

Redmond, Residence of Mr J Maring

Builder	J. Maring
Year	1996
Period/Style	Classical
Stops	11
Keyboards	2+P
Keyaction	electrical
Tuning	Equal at 440 Hz

Description

The organ was originally built in 1972 by F.J. Larner & Co. for St Philip's Anglican Church, Cottesloe.

The one manual mechanical action organ of five stops was installed at Mr Maring's Byford residence in 1988.

New American Oak case constructed for the organ at Mr Maring's Byford residence.

Removed from Byford on sale of property in 2003.

Placed in storage until 2006 when the organ was rebuilt in Redmond, Albany, by J Maring.

There is a plaque at St. George's Cathedral, Perth, in memory of twelve former choristers who died in the Great War. It records that the Lieblick Gedacht stop on the Great organ was given in memory of these twelve, and that it was dedicated on Anzac Day 1931. This rank of pipes has been used as the Rohr Gedeckt unit rank in the Maring organ.

Stoplist/Disposition

GREAT

Open Diapason 8'

Rohr Gedeckt 8'

Principal 4'

Nazard 2 2/3'
