

Kiel, St. Nikolai (chest organ)

Schuhmacherstraße, 24103 Kiel, Germany

Builder	U. Babel
Year	ca. 2002
Period/Style	Modern
Stops	2
Keyboards	1
Keyaction	

Description

The chest organ was designed and manufactured specifically to meet the requirements of St. Nikolai: It has a sustainable sound, can be transposed a semitone lower or higher, the concert pitch is variable up to 430 Hertz and it is possible to set a wide variety of temperatures.

In 2002, this instrument from the Gettorf Babel organ building workshop was handed over to the parish by the St. Nikolai e.V. organ building association.
